DATA CENTER FACT SHEET
RESTON/ASHBURN, VIRGINIA

COLOCATION DATA CENTER FACILITY

Our Reston/Ashburn colocation data center hosting facility in northern Virginia is ideal for clients who desire close proximity with Washington D.C., as this facility is only 15 miles outside of the Capitol. Our data center is equipped to provide not only colocation, but Atlantic.Net's full suite of hosting services and solutions, including Cloud, Managed, Dedicated, and Private Cloud Hosting. In addition, our Reston facility is not only located just outside the Ashburn data center alley but away from the flight path, proving to be a safer data center location than Ashburn.

CARRIER-NEUTRAL DATA CENTER – NETWORK PROVIDERS

Our Reston/Ashburn hosting facility is carrier-neutral so that your business always is treated with prioritized delivery, allowing the highest-quality network possible.

HIPAA, PCI DSS, SSAE 18, SOC 2, AND ISAE 3402 COMPLIANT

Our Reston/Ashburn Data Center Hosting Infrastructure is fully audited and HIPAA, PCI DSS, SSAE 18, SOC 2, and ISAE 3402 compliant. Our hosting operations are routinely and systematically inspected so you can rest assured your system is secure with Atlantic.Net.

COLOCATION HOSTING IN RESTON/ASHBURN

Atlantic.Net's Reston/Ashburn colocation hosting facility provides a secure, stable platform for carriers, competitive local exchangers (CLECs), Internet Service Providers, and all other bandwidth-intensive organizations. So confident are we in the quality of our data center in Virginia that we offer our clients a 100% uptime SLA on both network and infrastructure.
